Databases & APIs: PostgreSQL, SQLite, SQLAlchemy, Entity Framework Core, REST APIs, JSON, OAuth

DevOps & Testing: Git/GitHub, Docker, CI/CD (GitHub Actions), automated testing

Data & ML: Pandas, Scikit-learn, Power BI, Apache Spark/Hadoop, MDX, RStudio, Excel

Analysis & Design: UML, requirements gathering, process documentation (SOPs), root-cause analysis

Certifications: Harvard CS50, Google Cybersecurity

SOFTWARE PROJECTS

Private Mortgage Manager – Full-Stack Web App for Private Mortgage Lenders

Python, Flask, SQLAlchemy, PostgreSQL, Docker, GitHub Actions, Chart.js

- Built a dashboard tracking balances, payments, arrears and maturities, with live Bank of Canada rate data via REST API
- Automated bank statement reconciliation across CSV, Excel and OFX formats, plus month-end Excel reporting for lenders
- Built a suite of 78 automated tests running in a GitHub Actions CI/CD pipeline, with Docker for reproducible environments

HydraX – ML Rainfall Forecasting & Capture Analytics (Hackathon)

Python, Flask, Scikit-learn, Pandas, React (Next.js), TypeScript, Google Geocoding API

- Trained a machine learning model on historical climate data to forecast 10 years of rainfall for a geographic area
- Integrated the Google Geocoding API with geospatial mapping to calculate roof and land rainwater collection surface

Nutrition Tracker – Diet Logging & Nutrient Analytics Web App (Team of 3)

C#, ASP.NET Core MVC, Entity Framework Core, SQLite, Google Charts

- Built the diet log, food search services, diet goals and a nutrient chart comparing daily intake against goals

Core Continuum – Client Website for a Graduate Training Program (core-continuum.com)

HTML, CSS, JavaScript

- Designed and built a responsive, accessible site for desktop and mobile browsers, now live for the client

EXPERIENCE

West Mississauga Dental

Business Operations & Automation Specialist

Jun 2026 – Present

Mississauga, ON

- Work directly with management to improve administrative and financial processes through workflow automation
- Reduced aged A/R by 80% in two months by tracing discrepancies in a five-year insurance backlog to their root causes
- Consulted with ABELDent developers on an OCR feature for insurance statements, supplying requirements and edge cases
- Wrote SOPs for administrative and financial processes, standardizing workflows and preventing recurring errors

Food4Less

Bookkeeper

Nov 2023 – Present

Lindsay, ON

- Migrated financial data from spreadsheets into QuickBooks (new Chart of Accounts); resolve A/P and A/R discrepancies

1297322 Ontario Limited

Property Manager

Jul 2016 – Present

Milton, ON

- Primary contact for 30 commercial tenants, managing leasing, billing, vendor coordination and maintenance
- Coordinated crisis response to a week-long power outage at a 20-tenant property, keeping operations running

GCentre Ajax

Manager of Operations

Apr 2015 – Sep 2018

Ajax, ON

- Managed a team of 5, setting schedules and delegating tasks; developed SOPs that reduced operational errors

Atlas Paper Bags

Assistant IT Director

Aug 2014 – Jul 2015

Ajax, ON

- Supported an SAP CO module rollout (setup, configuration, end-user training, support) and maintained ~20 workstations
