EDUCATION

Sheridan College — **Expected: Apr 2028**
Honours Bachelor of Computer Science (Data Analytics) — *Oakville, ON*

York University - Schulich School of Business — **Apr 2009 - 2011**
Bachelor of Business Administration (2 Years of Coursework Completed) — *Vaughan, ON*

EXPERIENCE

West Mississauga Dental — **Jun 2026 - Present**
Business Operations & Automation Specialist — *Mississauga, ON*

- Analyze and resolve a backlog of accounts receivable, reviewing outstanding balances, identifying discrepancies and improving processes for tracking and collecting receivables on ABELDent software. Reduced aged A/R by 80% in two months.
- Consulted for ABELDent developers on an OCR module for intaking and allocating insurance payout statements.
- Identify repetitive administrative workflows and develop automation solutions to reduce manual work and improve efficiency.
- Develop and document SOPs for administrative and financial processes, creating consistent workflows across the practice.

1297322 Ontario Limited — **Jul 2016 - Present**
Property Manager — *Milton, ON*

- Serve as primary contact for 30 commercial tenants, resolving day-to-day operational, maintenance and billing issues
- Oversee end-to-end leasing: marketing units, screening tenants, onboarding and negotiating lease terms and renewals
- Coordinate crisis response, such as a week-long power outage at a 20-tenant property, keeping operations running

Food4Less — **Nov 2023 - Present**
Bookkeeper — *Lindsay, ON*

- Migrated financial data from manual spreadsheets into Intuit QuickBooks, set up initial Chart of Accounts
- Manage accounts payable and receivable, coordinating with customers and vendors to resolve payment issues
- Monitor invoices and bills in QuickBooks, ensuring payments are processed on time and discrepancies are corrected

GCentre Ajax — **Apr 2015 - Sep 2018**
Manager of Operations — *Ajax, ON*

- Managed a team of 5 on-site staff (front desk and marketing), setting schedules and delegating tasks
- Developed SOPs for renting, leasing and event hosting, improving service consistency and reducing operational errors
- Led marketing initiatives for memberships and event space, coordinating campaigns across social media, email and paper mail

Atlas Paper Bags — **Aug 2014 - Jul 2015**
Assistant IT Director — *Ajax, ON*

- Assisted the IT Director in rolling out a new SAP module (CO), including user setup, configuration, training and support
- Configured and maintained employee workstations (software deployment, antivirus and network setup) for approx. 20 users

SOFTWARE PROJECTS

Private Mortgage Manager - Full-Stack Web App for Private Mortgage Lenders
Python, Flask, SQLAlchemy, PostgreSQL, Docker, GitHub Actions

- Built a dashboard tracking balances, payments, arrears and maturities, with live Bank of Canada rate data via REST API
- Automated bank statement reconciliation across CSV, Excel and OFX formats, plus month-end Excel reporting for lenders
- Built a suite of automated tests running in a GitHub Actions CI pipeline, with Docker for reproducible environments

Core Continuum - Client Website for a Graduate Training Program (https://core-continuum.com/)
HTML, CSS, JavaScript

- Designed and built a responsive site with a video hero and sections for curriculum, faculty and registration, live for the client

HydraX - ML Rainfall Forecasting & Capture Analytics (Hackathon)
Python, Flask, Scikit-learn, Pandas, React (Next.js), TypeScript, Google Geocoding API

- Developed an ML model predicting 10 years of rainfall using historical climate data on a geographical area
- Built a coverage-area tool to calculate roof + land collection surface using geospatial mapping

Nutrition Tracker - Diet Logging & Nutrient Analytics Web App (Team of 3)
C#, ASP.NET Core MVC, Entity Framework Core, SQLite, Google Charts

- Built the diet log, food search services, diet goals and a nutrient tracker chart comparing daily intake against goals

CERTIFICATIONS & SKILLS

- **Certifications:** Harvard CS50, Google Cybersecurity Certificate
- **Programming Languages:** C, C++, C#, Python, JavaScript, Java, SQL, MDX, HTML/CSS
- **Other Tools and Frameworks:** Microsoft ASP.NET, PHP, Flask, Django, Intuit QuickBooks, SAP, Apache Spark/Hadoop, Microsoft Excel, Power BI, Docker, Git, RStudio, Spring MVC, Spring Security, OAuth, RESTful API
